**2022 Upper Mississippi River Navigation Closeout Letter**

Dear Valued Dry-Cargo Customers,

Please see the revisions below (in 'red' text). We have revised our final departure date from the St. Paul/Redwing area due to added lock closures for Lock 3 and Lock 4 (note below). Our plan now is to make our final southbound seasonal departure from the St. Paul/Redwing area on 11/17/2022 (was 11/20/2022).

In preparation for the closing of the 2022 navigation season for the Upper Mississippi River (above St. Louis) during the winter months, the following tentative dates should be used for planning purposes. **As operating conditions and weather dictate, these dates may be extended or shortened as the navigation season closes.**

**The following dates should be used by Shippers as "final loading dates" (0700 release) from points of origin to destinations on the Upper Mississippi (above St. Louis). Final barges will be moved towards their destinations using these 2 schedules:**

**Off-loading Instructions at Destination - Important Details for Shippers and off-loading facilities:**

Shippers, please plan with your customers so that all barges are off-loaded at destination, at least 10 days prior to our scheduled "final departure dates" from the Upper Mississippi (listed below).
